

Tough Glass Reflective Splashback Disclaimer

Published June 1st 2018

Please be advised Reflect Silver / Bronze & Splashguard is not standard mirror and is intended for reflective purposes like that of a mirror. Reflect Silver / Bronze & Splashguard is a special coated product which allows us to toughen the product to Grade A Safety Glass where standard mirror cannot.

Due to an extremely difficult processing sequence we are unable to deliver this product (Reflect Silver / Bronze & Splashguard) as a perfect product.

Please be assured though we will do our very best to prevent minor small spots, slight water stains and very small scratches. It is important to understand when Reflect Silver / Bronze & Splashguard is toughened, distortion can appear around cut-outs on the finished product due to roller wave (processing involved when toughening the glass).

We proudly stand behind our warranty and industry standard AS NZS 4667-2000 Quality requirements for cut-to-size and processed glass.
